

## **【URGENT】 Confirming Tray#s & Compatible Products**

# Bug On “Recommendation” Page

The recommendation page is **NOT SHOWN** on the device while it's on mobile.

The analyzing page on device is staying forever...

# UNMATCHED Samples with Recommendation

The sample dispensed is UNMATCHED with the recommended product on mobile.  
Also, 2 samples were dispensed this time as shown in the pix below...

# Bugs After Scanning The QR On Start Screen

Please **ADD MODIFICATION /CONFIRM THE PAGE TRANSIT** for the QR on the device below.

When scanning the QR code to start on the device (shown below on the left),  
the same “START PAGE” is shown (in the middle below) before the language select is shown (on the right below)
